

Adelina MVVR
ILR 293063
DOB 8/30/19
Female
GNLC Switchfoot X Adelaide

Adelina offers an exciting opportunity to add a young, but successfully proven female to your herd. We have chosen to retain two daughters in our herd, both of which will be on display at The Gathering, for your viewing pleasure. You can see exactly the production this powerful female is capable of. Adelina, previous high seller at Cascade as a yearling, measures 47 inches at the withers and weighs in at over 420 pounds! If you're looking for size and capacity then she's definitely your gal. She's passed these traits on to both of her daughters as well. Wonderful maternal instincts, easy breeder and birther and ample milk production.

Her first daughter, Sapaveco's Velvet Ash, has had a successful show career garnering 5 championships over the past year. Her youngest daughter, Sapaveco's Pistol Annie, will hit the show ring at The Gathering. She is sired by MSF Firecracker and is a great representation of the full sibling Adelina is currently carrying.

Contact us for videos, pictures or with any questions or stop by our stalls and see this female and her production in person!
