Naming this cria LITTLE Dew Drop might have been presumptuous, seeing that at 7 months she is already fairly big. She must get it from both her Grandpa's. Little Dew Drop is a beautiful girl full of spunk and fearless. She already enjoys stealing her 2 year old sisters food and running along side my mower and tractor in her pasture. She grew a nice medium to medium heavy wool coat for her first winter. She has been very receptive to early training.

We were extremely happy with this breeding and the joining of these 2 great bloodlines. Dew Drop was born and bred at Old Farm New Farm Llamas, 1 hour west of Saint Louis, Missouri. Thank you for your interest in this wonderful girl.
