

Stone Crest's Flora  
ILR 297122  
DOB 3/2/22  
Female  
Spot On RTC X Francine RTC  
Exposed to OTM Elecko on 5/26/24

We are offering our first female out of Spot On RTC. Spot has been producing very colorful, correct offspring and Flora is no exception. Flora has a sweet personality and is easy to work with. Flora's dam, also an appaloosa, has been a very good producer on our farm. She was a great mom and heavy milker.

Flora has been exposed to OTM Elecko for a spring 2025 cria. Elecko has done well in the show ring winning multiple Grand Champions. We will guarantee a live birth cria. If you want to breed for appaloosas, this is the female for you.
