

RCF Navajo Princess
ILR# 300348
11/9/2024
Citation MVVR X RCF Navajo Princess

This beautiful girl is another Citation x Meraxes daughter out of one of our top young females. Princess came a few weeks early just so she could be the 'first' Citation offspring born at RCF. She is also the first offspring out of her mom, RCF Annie Oakley, our Spring Showcase BIS Female. Although she started out small at birth, she has outgrown most of her siblings and seems to be doing so at an accelerated rate. Her mom started off average sized and grew to be the tallest and biggest female in our herd! As an interesting footnote, Princess' red color pattern is almost identical to her great, great grandma, Chateyna, who was the first female selected for Rock Creek Farm. She will make someone a nice addition to your breeding herd!
