Mystery's Timone X TooMuffin RTC

Oh boy this one is a one of a kind!~ A reverse Appaloosa SILVER male.
This is the absolute last cria of Mystery's Timone. What a find! He was suppose to go to Maui as a cria, but missed the boat when the port closed after the hurricane. Here he is and we absolutely love him. We already own his brother Stone Crest Granite,our Grand Champion boy, otherwise Steel would be staying here. Steel is a huge male with a very gentle personality, he lives with a herd of young males and some old guys too. Take a look at this unusual lineage that can be bred to your girls. We are breeding Steel to a few this spring to prove him.
