

WRLF WOLFGANG'S WEDNESDAY

ILR #300940 - Female

DOB 12/18/2024

PPR Wolfgang x PPR Wyllow

Consigned by Walnut Ridge Farm

WRLF Wolfgang's Wednesday is the kind of female that makes you stop and look twice. Strikingly marked in black and white, she boasts a crisp white face and a classic tuxedo pattern that perfectly complements her silky fiber and refined presence.

Wednesday is eye-catching on the outside - and even more impressive on paper. She represents a double dose of the highly respected Pearson Pond Ranch (PPR) bloodlines. Her sire, PPR Wolfgang, has been our most consistent herdsire, reliably producing correct, colorful well-balanced crias with strong conformation and style. His pedigree is a powerful blend of influential Chilean and Bolivian genetics, featuring Chilean San Juan, PPR Black Orchid, Purple Tiger, Santiki and Aloha Night Sprite - names known for quality, color and longevity. Wednesday's dam, PPR Wyllow, is a refined silver female sired by Don Diego and a granddaughter of the renowned Argentine Don Zunca.

With generations of unique black and silver coloration genetics embedded deep in her pedigree, she offers both standout visual appeal and serious breeding value. Whether you're looking to elevate a show string or strengthen a forward looking breeding program, WRLF Wolfgang's Wednesday is a kind of female that moves a herd confidently into the future.
