

HARD ROCK'S KATARINA

ILR #299830 - Female

DOB 10/20/2024

Hard Rock's American Dream x Kayleena RTC

Consigned by Hard Rock Llama Co.

Hard Rock's Katarina "Miss Kat" on the farm is a powerhouse of a female who mirrors the size, presence, and commanding style of her statuesque dam, Kayleena RTC. From the front, she's a hard one to fault: long, hooked ears, an eye-catching appaloosa-colored neck, and a strong, wide front end that anchors her impressive frame. This large, heavy-wool female carries herself with a bold, almost cocky confidence that makes her impossible to overlook. Her dam, Kayleena, draws comments from everyone who sees her, and Kat carries that same unmistakable stamp of size and presence. Kat's sire, Hard Rock's American Dream, is the last of our Campaign sons, bringing the wildly colored appaloosa paint pattern, abundant soft fiber, and strong bone that made Campaign so unique. Together, these genetics have combined into a striking, well-built young female with tremendous potential. Kat is still early in her development with a full show career ahead of her, but she'd be just as happy being your favorite pasture princess. No matter the direction you take her, she is sure to be an exceptional addition to any herd, and we cannot wait to see what she produces in the future.
