

OLLENDICK FARMS CRUSHED IT

Ollendick Farms Crushed it is an extremely stylish guy, who matches great confirmation, and impressive bone with stretch. This boy is very showy. He just floats around the ring, which is no surprise because his mom was the same way!

Crushed it was the Reserve Champion Silky Male at the ALSA Grand nationals in 2025, and has a lot of showing left to do, due to him only being 17 months old. Crushed it has only been to 3 shows and has done extremely well. His bloodlines tell me that he is bound to compete for grand championships in the near future.

Crushed it's Dam is HHNA CC's First Crush who has quite the show record herself. She is a finished halter champion, with 5 Best of shows, 6 Grand Championships, and 2 Reserve Championships. Keep in mind, I only brought this girl to 6 shows. Her First baby Crushed it, Is extremely similar to her!

His sire High Gear is a Switching Gears son, and High Gear's dam is PVL Chilean Sapphire who is a dam of distinction and arguably Ollendick Farms top dam of all time. High Gear has produced some incredible crias during his time including "Truffles and Pearls" owned by Venesa Carter.

Crushed it, is ready to finish out his show career this fall and begin his work in the breeding pasture. I'm positive that with the looks of this guy and his background, you will not be disappointed in how he does for you!
